Attractive Prices for Superior Quality
For Florists, Nurserymen and Dealers

YOUR attention is invited first to the greatly reduced prices herein, especially on Tulips. While general conditions warranted reduction on some varieties, we have made such favorable purchases that we are able to reduce prices to a lower level than many thought was possible early in the season.

Of greatest importance is the fact that our Holland bulbs come from the same reliable concerns which have supplied us in the past, from one of which we have bought bulbs for over fifty years. All our growers assure us that there will be no reduction in size or quality on account of the reduced prices. We have not been "shopping around" to secure low prices, but we are buying our regular first class stock. Furthermore, advices from Holland indicate that growing conditions have been very favorable and that bulbs will be unusually fine. This combination of greatly reduced prices and superior quality will still further increase the popularity of Tulips and other winter and spring flowering bulbs. Every progressive florist and nurseryman should make the most of this favorable opportunity.

We invite your attention to the seasonable varieties of flower seeds, in which we specialize and to our splendid list of Hardy and Tender Plants of which we grow several acres in all the leading varieties and best kinds used by florists and nurserymen for outdoor and greenhouse planting.

Our Terms are liberal. To parties of approved credit we allow 60 days time, or 2 per cent discount if paid in 10 days from date of invoice, or 3 per cent. if cash is sent with order. Orders from new or unknown customers should be accompanied by cash; or, if credit is desired by new customers, satisfactory references, preferably banks and business concerns who have extended credit, will be required. No goods will be sent C. O. D. unless a partial remittance is made as a guarantee that goods will be accepted. *These prices are subject to change without notice.*

Our Facilities are unsurpassed. With favorable freight and express conditions, we can handle orders rapidly. Nine railroads enter Rochester, whose numerous fast freight and express trains enable customers to secure their shipments promptly.

At prices here quoted we deliver all goods to the freight or express companies in Rochester, with no charges for boxes, packing or carting. With our excellent equipment for shipping we can be depended upon to send out bulbs in apparent good condition; after that our responsibility ceases. We give no warranty, express or implied, as to description, quality, productiveness or any other matter, and we will not be responsible in any way for the crop. If the customer does not accept these terms, it is not a sale, and the goods are at once to be returned, and the money paid for same will be refunded. Subject only to the above conditions, and by reason thereof, we make the moderate prices at which we sell our goods.

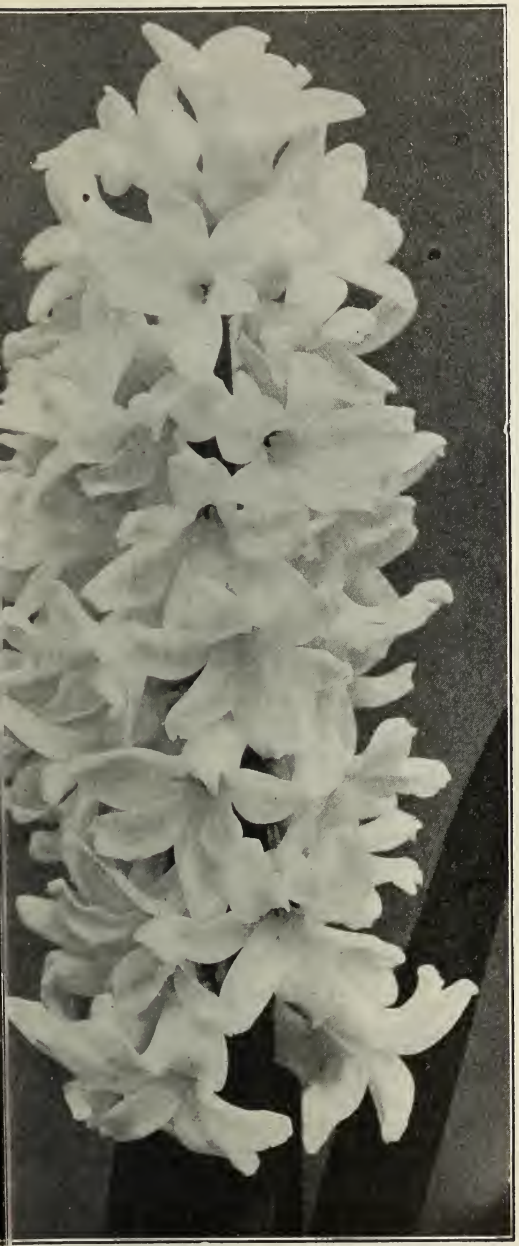
Special Notice. Customers should give on every order, full name, postoffice, freight or express station, county and state; and also advise whether goods are wanted by express or freight. In the absence of such instructions we will ship according to our best judgment, but will not be responsible for the consequences. WE USUALLY SHIP BY EXPRESS, believing that course to be safer and more satisfactory. But sometimes, in the absence of instructions, we ship by freight, especially in cases of heavy shipments, to points easily reached. We have no fixed rule, however, and advise that customers give their preference.

A Final Request. Customers should advise whether they desire the varieties shipped when ready, or the entire order held until it can be shipped together. If not advised, we will ship when each kind of bulb is ready. The early Bulbs—Paper White Narcissus, Freesias, Candidum, Harrisii and Calla Lilies—can be furnished at once; nearly all of these have already arrived. Hyacinths, Tulips, Crocus, etc., in September; Lilies of our own growing can be furnished in October while most imported hardy lilies, do not, as a rule, arrive until late in October or November.

VICK'S HYACINTHS

First Size Bulbs. Especially Selected for Our Trade.

The standard size named varieties used in large quantities for forcing.



HYACINTHS are once more becoming very popular. The scarcity of these beautiful flowers for the past few years helps now to create a new desire for them, and will stimulate a strong demand by the time their showy blossoms are ready for sale. Largely because our overhead expenses are less than in larger cities, our prices for these large 17/18 CM bulbs are as low as some others ask for a smaller size.

We also offer a larger list of varieties than most other American concerns, thus giving you a wide range from which to choose. High Quality, Low Prices and Good Service, go with every order we fill.

Not less than 6 of one variety at dozen rate or 25 at hundred rate.

Not less than 250 bulbs of one variety at thousand rate.

UNNAMED HYACINTHS

Because these Hyacinths in separate colors consist of the surpluses of high grade named varieties they can be sold at greatly reduced prices. Many successful florists use them for forcing. For out door growing they give excellent satisfaction. Few, if any, other concerns in America import as large quantities of this class of Hyacinths as we, which proves conclusively their general satisfactory results. Prices are lower than last year.

Not less than 6 bulbs at the dozen rate, 25 at 100 rate, 250 at 1000 rate.

VICK'S SINGLE EARLY TULIPS

Choicest Named Varieties

NO other class of bulbs can surpass the Single Early Tulips for early forcing, and out door planting for early flowers. Because of their popular colors, variety of form, ease of culture and general usefulness with other flowers, florists find Early Tulips very profitable.

The varieties below are the best and most popular out of a long list available. Some are best adapted for indoor uses while others surpass for bedding and mass effects.

Not less than six bulbs of one variety at the dozen rate, twenty-five at the 100 rate, or 250 at the 1000 rate.

VICK'S MAY FLOWERING TULIPS

The May Flowering or Cottage Tulips bloom about the same time as the Darwins, and like the Darwins are increasing rapidly in popularity. They have long stiff stems and a great variety of color. The characteristic shape of the flowers is long and oval, some are gracefully lily flowered with long reflexed petals, and some distinctly goblet shaped. A very interesting useful class.

VICK'S DARWIN TULIPS

Darwin Tulips are noted for their rare beauty, large flowers, long strong, erect stems, and long flowering period. The stems are from 1½ to 3 feet in height, and bear mammoth blooms of handsome shape in beautiful satiny shades of all colors. The foliage is abundant, strong and heavy. On account of their great beauty they are growing in popularity by leaps and bounds. Planted in connection with the early-flowering kinds they will complete a succession of bloom from early spring until the first of June. While they are especially adapted for outdoor growing, they can be grown for cut flowers under glass if forced slowly. We recommend these named varieties as our selection of over fifty kinds. Varieties marked (*) are especially good for forcing.

Old Dutch Tulips

The Old Dutch Tulips are again coming into prominence and they certainly deserve to be used much more largely than they have for several years past. The Breeders are especially desirable. In them nature's happiest color combinations of purple and mauve, bronze and gold, brown and silver tints are revealed. They harmonize with high class house furnishings as if they were made for such settings. The old varieties with their gaudy, oftentimes flashy colors have been gradually discarded until now we offer in this group the most artistic and pleasing combinations of colors found anywhere in the tulip family.

Narcissus or Daffodils

OUR Narcissus or Daffodils are grown by experts in favorable sections where experience proves they develop best. After testing stock from many sources we have purchased our entire supply from those stocks which gave best results this spring. We have more confidence in American grown Narcissus this year and believe these special stocks will give abundant satisfaction. You may find cheaper grades, but not lower prices, quality considered.

POLYANTHUS NARCISSUS
Large Flowering Paper White

Undoubtedly the most popular Polyanthus variety ever developed, either for commercial purposes or for amateur house culture. To secure the best results with American bulbs they should not be planted as closely, started as early or forced as rapidly as French bulbs. When these facts are generally known, sales of Paper Whites will increase enormously. Per dozen, $1.00; per 100, $6.50; per 1000, $62.50.

LILIUM AURATUM

HARDY LILIES

The following list of Hardy Lilies of French, Japanese and American Stocks will be found invaluable by florists in providing a supply of the choicest kind of cut flowers for use during the early summer months. These lilies if planted this fall or even early next spring, will provide high grade salable flowers at a time in the summer when other flowers are usually scarce, at much less expense than greenhouse grown lilies. Another important matter to consider is the fact that in comparison with the final results the first cost is very low. Remember, these varieties continue to produce profitable flowers year after year with no expense except ordinary garden cultivation.

Vick's Lilies for Forcing

LILIUM CANDIDUM—Madonna Lily

LILIUM CANDIDUM

This variety is sometimes called the Annunciation Lily, or Madonna Lily. Good for forcing, also used for outdoor planting. Its snowy white flowers are borne aloft by long, slender stems. Unsurpassed in stateliness and beauty.

Selected Large Size Bulbs, Per Doz., $2.25; per 100, $12.00.

LILIUM HARRISII

Invaluable for florists. Can be forced into bloom by Christmas. Our stock comes direct from some of the best growers in Bermuda, to whom we pay special prices to secure extra good bulbs, well grown, thoroughly ripened, carefully packed. We believe this stock will give perfect satisfaction. For early flowers Harrisii will be in great demand.

Original case containing 200, 7 to 9 inch bulbs $35.00; Per dozen, $2.75; per 100, $18.50.

LILIUM FORMOSUM

This is a splendid pure white, free flowering Lily of the Longiflorum type, imported from the Island of Formosa. The Formosum can be forced into bloom earlier than any other Lily of its type except Harrisii, for which it is a good substitute.

Original case containing 300 bulbs, 7 to 9-inch, $30.00; per doz., $2.00; per 100, $12.00

California Redwood Burls

A Popular Novelty For Florist Sales

When they first arrive they have the appearance of dry, rough knobs of dead wood. Placed in bowls in shallow water sprouts soon appear, and shortly the surface is covered with a miniature forest of tiny evergreen trees. Extremely hardy. Will live for years under conditions where other plants fail. Very attractive for counter and window displays. As table decorations or combined with other house plants they are unique, attractive and beautiful. No special treatment required except to keep the base in water. Grows 12 to 18 inches high. $7.00 per doz.; $50.00 per 100.

BULB FIBRE

Florists and dealers will find a ready sale for Granulated Peat Moss for bulb fiber. This material is used instead of pebbles or soil for potting Narcissus, Hyacinths and other bulbs and is superior to either one. It retains the moisture and furnishes an excellent medium for the roots of the bulbs to grow in. It never gets sour or stagnant. Does not require for this purpose the addition of charcoal, bone meal or any other material.

Supplied in convenient size 2 qt. cartons at 15c each; large bales covering about 240 square feet one inch deep, $3.50 each.

PLANTS AND BULBS

WE grow large quantities of vigorous, healthy, well developed plants of all the leading varieties, especially adapted for the florist and nursery trade. Our long experience in growing and shipping plants and the fact that there is an express office directly across the R. R. tracks from our Greenhouse and Nursery Office is proof of our ability to give prompt and careful service.

High quality, reasonable prices and prompt service are very important factors in shipping plants successfully.

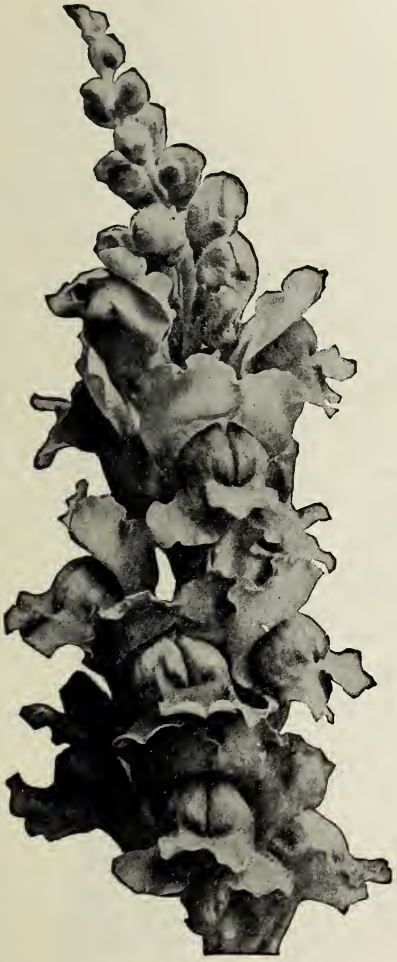
VICK'S FAMOUS FLOWER SEEDS

This concern has specialized in flower seeds longer than any other American concern, and varieties we have introduced are famous the world over. The following list contains many of the leading seasonable varieties in popular demand by Florists for fall sowing. If your requirements call for other varieties, send us your orders, as our stocks are complete and our prices are reasonable and in many cases comparatively low.



ANTIRRHINUM NANUM GRANDIFLORUM

A new type of Stocky Giant Flowered Half Dwarf Antirrhinum, bred especially for cut flowers. This splendid class, magnificently colored, has very large spikes or heads and can be grown with success either under glass or out of doors, and we believe you will find it more desirable for Greenhouse culture than some of taller varieties. See cut for type of flowers. We can supply the following varieties;

Amber Queen, canary yellow over-laid chamois pink, golden lip. ¼ oz., 35 c; oz., $1.00.

Cottage Maid. Soft pale pink with white tube. ¼ oz., 35 c; oz., $1.00.

Empress, Rich velvet crimson. ¼ oz., 35c.; oz., $1.00

Fawn. Pink and terra cotta shades. Very showy. ¼ oz., 35c.; oz., $1.00

Gloria. Rich deep rose. ¼ oz., 50c.; oz., $1.50

Golden Queen. Clear yellow. ¼ oz., 35c.; oz., $1.00

Philadelphia Pink, extra fine. ¼ oz., $1.00; oz., $3.00.

Purity, (New.) pure glistening white, very fine. ¼ oz., 35c.; oz., $1.00

Silver Pink. (Special Florists Strain). ¼ oz., 60c.; oz., $2.00

Early or Winter-Flowering
SPENCER SWEET PEAS

The growing of Early Winter-Flowering Sweet Peas has now become a part of the regular growing plan of all florists. Although there are a few recognized varieties that florists have used for a number of years, new sorts of proven merit are being introduced from year to year and the following list contains several of the best of these new introductions as well as a number of the best of the older varieties. Even where you do not have space to grow Sweet Peas in the greenhouse, if you will plant these extra early flowering varieties in a warm, sunny location out-of-doors during January or February you will get your flowers unusually early in the spring.

Sweet Peas can be grown in greenhouses more safely and will grow more vigorously and yield larger flowers if the seed and soil are treated with Semesan (see p. 24) to prevent "damping off." Sow very thinly and thin out to about three inches in the row. It is best to sow the tender varieties, such as whites and lights pinks, in sand and transplant. Sow ninety to one hundred days ahead of the time that you want the bloom. For Christmas blooming the seeds should be sown about the middle or latter part of September.

Early-Flowering Sweet Peas bloom in one hundred to one hundred and ten days in the open ground under normal conditions. Time required to bring into bloom in the greenhouse will vary more or less according to the amount of sun, light and heat.

Our customers tell us that Winter Flowering Sweet Peas are one of their best paying crops and a row through the center of a wide ground bench is a good investment.

IN THE GREAT WAR

Between Man and the Insects

These six new Insecticides and Fungicides are very important plant enemy destroyers.

SEMESAN. Prevents "Damping off." For treating seeds, seedlings, plants, bulbs and tubers; for sterilizing plant beds, hot beds and greenhouses; for curing "Brown Patch" in lawns, parks and golf courses. Will not injure germination of delicate seeds. Can safely be used on tender seedlings which other fungicides would burn. We find it very valuable in preventing blight in our Aster fields.

Prices: 2 oz., 50 cents; 8 oz., $1.60; 1 lb., $2.75; 5 lbs., $13.00; 25 lbs., $62.50; 50 lbs., $122.50; 100 lbs., $240.00.

VOLCK. An effective spray to kill pests such as red spider, mealy bug, scale, mildew, white fly, aphis, thrip, caterpillar. Can be used safely on tender greenhouse and garden plants. Will not burn hands, stain clothing or leave disagreeable odor. Actually brightens the plants and gives them a healthy, handsome appearance.

Prices: ½ Pt. Cans, 50 cents; 1 Pt., 75 cents; 1 Qt., $1.00.

TERRO ANT KILLER. Our customers say it certainly does the business. Exterminates an entire ant colony in twenty-four hours. Can be used in the house, greenhouse, or any other building, and on lawns, parks and golf courses. No necessity to endure these offensive and destructive pests any longer. Send your order today. Get rid of ants at once.

Price: 2 oz. bottle, 50 cents.

AGRI-PAX. A powerful but safe contact spray guaranteed by the makers to kill aster beetles, rose bugs, leaf hoppers, which most sprays would not affect, and all other insects of every known kind. A big boon to Aster growers and many other harassed flower, vegetable and plant growers. Will not harm tender plants. Non-poisonous to humans and animals for which reason this material can be used for cabbage worms, slugs and aphis, and on any kind of fruit or vegetable. No annoying fumes. No stains to hands or clothing.

Prices: ½ lb., 40 cents; 1 lb., 60 cents; 2 lbs., $1.00.

PRO-PAX. The most approved household insecticide. Kills flies, mosquitoes, moths, roaches, bed bugs and many other insects. Much superior to other sprays of this character. No disagreeable odor. No stain or injury to most delicate fabrics. No injury to anything except insects.

Prices: 8 oz., 40 cents; 16 oz., 60 cents; 32 oz., 90 cents.

CYANOGAS. By far the most economical method of fumigating greenhouses yet devised, and a most effective means of ridding plants of white fly, aphis and many other insects. Cyanogas G fumigant is recommended for greenhouse fumigating. Cyanogas A dust may be used for rats, moles, ants and woodchucks. Be sure to specify which grade is wanted. Either grade G or A.

Prices: 1 lb., 60 cents; 5 lbs., $2.50; 25 lbs., $8.50; 100 lb. drums, $25.00.

To the grower who is troubled by plant enemies of any kind this may be the most important page in this catalogue. Get an ample supply of all kinds. Prices on larger quantities on application. If you are prepared to offer any of these for retail sales, get our special prices for dealers in quantity lots. Descriptive circulars will be mailed on request. Instructions for use of these materials with every order. Don't delay. Be prepared to destroy all kinds of plant enemies before they destroy your plants.
